God	sends	their	light	to	us	each	day!

2. Eye, eye, eye, eye!

Our eyes can see the night sky!

The great constellations we see over here

Are different from those you see elsewhere.

3. Eye, eye, eye, eye!

Our eyes can see the night sky!

The Milky Way Galaxy, oh, what a sight—

And comets and meteors shoot by!

4. Eye, eye, eye, eye!

Our eyes can see the night sky!

I thank You, Lord, for all the heavens we see,

The firmament shows that You love me!
