2. Well, you know how it feels when you need a drink?
Oh, you thirst! Well, then don't let your body sink!
The majority that composes me:
Yes, it's water, chemically (H₂O, you know)!
It freezes to ice, which is very nice!
And dissolves: lemonade, tea and Gatorade!
What a great plan, Lord, that You made it so:
Water flows and goes and flows and goes!
