2. Throughout our Christian life
A storm wind starts to blow,
Makes us dissatisfied,
Disturbs our status quo.

3. The wind is God Himself
Who causes us to turn,
To seek more of the Lord
And make our spirit burn.

4. This issues in the cloud—
Abundant grace He brings,
His overshadowing love,
The safety of His wings.

5. The fire then consumes
All that is not from Him;
It burns and sanctifies
And makes us pure within.

6. God's precious essence thus
Into our being poured,
Electrum shines from us
The glory of the Lord.

7. The living creatures joined,
Connected by their wings,
In four directions fly,
And God's expression bring.

8. Lord as Your move today
As living creatures, we
Your radiance would express,
And Your authority.
