2. The nourishing rich Spirit in our spirit,
Cherished by our Christ so tenderly,
Feeds us with the spiritual milk, the word of God, that we may grow
Unto salvation in our inward being.

3. The sanctifying Spirit from our spirit,
Captivated, gained, by Christ the Lord,
Sanctifies us with God's nature, disposition penetrating,
Thus to make us holy unto God.

4. The fresh renewing Spirit in our spirit,
Indwelt by the rich, abundant Christ,
Renews us that we may put on the one new man, as we put off
The old man through the breaking of the cross.

5. The strong transforming Spirit in our spirit,
Filled by Christ and spreading to our soul,
Transforms us, glory unto glory, into Christ's own glorious image,
His expression to the uttermost.

6. The master building Spirit in our spirit,
Possessed by Christ and mingled with the Lord,
Builds us up into the house of God and Christ's own Body for the
Mutual dwelling of the Triune God.

7. The full-maturing Spirit in our spirit,
Day by day enriched with Christ the Son,
Conforms us to Christ's image, to the measure of the stature of God's
Firstborn Son, the model of God's sons.

8. The sealing, inking Spirit in our spirit,
Which exults with Christ, our glorious life,
Saturates us with and brings us into God's own glory for our
Full glorification by His life.

The life-releasing consummated Spirit
Becomes intensified with seven burning eyes,
With Himself infusing and enlightening,
Restoring our first love that He could gain Christ's bride.

9. Th' intensified bright Spirit in our spirit,
Drawn by Christ the Lamb, now motivates
To overcome the church's degradation for Christ's Body, thus the
New Jerusalem to consummate.
